## FLAMES AT QUEBEC!

**A Fierce Fire Raging at the Canadian City—A Hundred Houses Burned.**

QUEBEC, May 16.—Early this morning fire was discovered in a vacant building in St. Sauveur, and soon assumed large dimensions, spreading to various parts of the city. The firemen were unable to check the flames, and the military blew up the houses with powder to prevent it from spreading. While they were engaged in this task a premature explosion took place, killing two men.

The fire covered a large area, and destroyed over a hundred houses, involving a loss of not less than $100,000. It is still raging.

**A CLEVER SWINDLER.**

**He Defrauds Liquor Men Out of $300,000.**

CHICAGO, May 16.—One of the biggest swindles of the year, by which western liquor men have been "taken in" to the tune of $300,000, has just been brought to light, and the swindler, a bright young chemist, named John Archibald Camp, is now living in luxury at some far-away place.

He claimed to be the discoverer of a compound which, when mixed with new whisky would give it the odor, taste and appearance of from four to six-year-old high wine. He had a refrigerator with a false bottom, and this was used to effect the swindle.

**Presbyterian General Assembly.**

NEW YORK, May 16.—The general assembly of the Presbyterian church in the United States, opened its session with prayer to-day in the Rev. Howard Crosby's church on Fourth avenue. The edifice was crowded, altogether there were 480 delegates representing twenty-eight synods or state districts of the Presbyterian church.

**Y. M. C. A. LECTURE COURSE.**

**Robert McIntyre, the Orator, Next on the Program—Thursday Evening, May 23d.**

Robert McIntyre, the great word painter of the west, will give his celebrated lecture, "Thirty Hours in the Sunless world," next Thursday evening in the Y. M. C. A. hall. Admission only 50 cents. The Topeka, Kan., *Daily Commonwealth* contains the following about Mr. McIntyre:

Even Robt. Ingersoll himself could not surpass him in his loftiest flights, and McIntyre is superior to Ingersoll in depth of thought. No more profound thinker has set foot on Kansas soil. We have heard Talmage and others in America and Europe, but for burning eloquence never heard Robt. McIntyre's equal.

**FOR MURDER.**

**Old Man Barrett Indicted on Three Counts.**

The grand jury, now in session, yesterday investigated the killing of Mrs. Barrett by her husband, John Barrett, and this morning returned an indictment charging the old man with murder in the first degree on three counts.

**The Weather.**

WASHINGTON, May 16.—Indiana—Fair in southern portion; light rains in northern portion; stationary temperature in southern portion; warmer in northern portion; southerly winds.

The observance of the silver jubilee of Dean E. P. Walters, of Lafayette, was an imposing affair and a high compliment to the distinguished divine, who formerly resided here and still has a host of friends in Fort Wayne. The school children paid their respects to the priest, then the parishioners. There was a parade and all day there was a reception at the clergyman's home. The feature of the occason was the celebration of solemn high mass, in which Rt. Rev. Bishop Dwenger officiated, with Rev. T. M. O'Leary, of this city, as sub-deacon and Chancellor Lang master of ceremonies. There were present from these parts Rt. Rev. Bishop Dwenger, Very Rev. J. H. Brammer, Very Rev. E. Koenig, Rev. T. M. O'Leary, Chancellor J. F. Lang, of this city; Rev. Father Koerdt, Sheldon; Rev. J. H. Oechtering, Fort Wayne; Rev. D. Duehmig, Avilla; Rev. J. R. Dinnen, Crawfordsville; Rev. B. Weiden New Haven. The sermon of the day was delivered by Rev. D. S. Phelan, editor of the *Western Watchman*, St. Louis. Father Walters is one of the ablest pastors in the Catholic priesthood. He was the recipient of many tokens of love from his congregation.

Dr. Geo. W. Bowen is at home from Indianapolis. THE SENTINEL has outlined his address to the Indiana Homeopathists.

**LOCAL LINES.**

The Tad pole club is expected home to-morrow.

Mr. Al. Pepe is at home from the Tad Pole excursion.

Police court was a blank this morning. The reform is on.

Justice France fined Walter Shane $1 and costs for provoking Jennie Vaugh.

Mrs. Geo. DeWald and Mrs. John Mohr returned at noon from Grand Rapids.

The will of the late Albert Garrison was filed to-day. He leaves his estate to his wife.

The Concordia college club beat the Collar nine at base ball yesterday by a score of 14 to 6.

Mr. Geo. Gordon, the Pittsburg baggagemaster, is going to be a candidate for councilman from the Seventh ward.

F. W. Peters, St. Louis; E. Earl, Pittsburg; C. Rauch, Chicago; B. A. Stone, Mohawk, N. Y., are at the Aveline.

Mrs. C. C. Craig will leave to-night for Hillsdale, Mich., her former home, to visit her grandparents and friends for a few weeks.

Jacob Ardington, the fellow who knocked his wife down because she received love letters, was fined $5 and costs by Mayor Harding.

J. B. Barnes, Springfield, Ill.; Albert Heizing, St. Mary's, Ohio; Bromley, Jackson, Mich.; G. B. Webb, Lancaster, Ohio, are at the Wayne.

Col. R. S. Robertson yesterday received his commission as one of the Utah commissioners. The first meeting of the new commisson will not be until September next.

Mrs. Maggie Sully, who underwent an operation at the City hospital recently, has so far recovered as to be conveyed to her home, corner of Montgomery and Clay streets.

The Tivoli Garden is billed to open next Sunday with a band and big picnic. The place is within the jurisdiction of the mayor, and of course the sale of beer will be prohibited.

Helen, the little daughter of Mr. F. J. Noll, of East Jefferson street, was playing about a cellar-way this morning when the door fell upon her foot and nearly severed the big toe.

Mr. W. H. Heustis, for ten years a traveling salesman for A. C. Trentman, has resigned to give his attention to the commission house of Clayton, Purcell & Co., in which he is interested.

The Licensed Liquor Dealers' association is called to meet to-morrow afternoon to take action on Mayor Harding's proclamation. Some of the saloon men talk of fighting the movement to enforce observance of the Sabbath.

Mrs. Wheeler, residing at the corner of Thomas and Horace streets, underwent a difficult but perfect operation last Tuesday, and is now out of danger. The operation was performed by Drs. Laubach, McCausland and Chambers.

Louisa McCrea was arrested to-day for cruelty to her little child, but the case went over until to-morrow, before Esquire Ryan. If reports are true, the woman suspends the infant by its lower limbs, sticks pins into its little body, and is extremely inhuman.

Louis E. Martin and Catherine L. Richard, Wm. H. Martin and Charlotta A. Hunter, Charles A. Armbruster and Matilda Ort, Timothy Redmond and Esther Keef, have been licensed to wed. Armbruster is a beardless Aboit township boy who weds a widow aged thirty-five years,

Messrs. John Forbing and David Comparet are going over the city real estate very carefully and thoroughly. Their work will necessitate an extension of time for them, but there should be no hesitation in granting it as the work is of the highest importance. Mr. Forbing says they are making a gradual increase in the valuation of the property all over the city, for the first time in ten years. The Hamilton and Williams estate on Calhoun street and the Taber estates come in for a snug raise, they say, and to equalize matters Mr. Forbing believes the tax levy can be reduced to ninety cents on the $100, ten cents lower than it is now.

## DEATH STRIKES HIGH!

**And Removes the Newly Appointed Minister to Russia Ere He Had Set Sail for That Country.**

NEW YORK, May 16.—Mr. Allen Thorndyke Rice, the newly appointed minister to Russia, died at an early hour this morning.

He was nominated to be minister to Russia by President Harrison and was to have sailed for Europe yesterday, on the steamer City of Paris. Monday afternoon the soreness in Mr. Rice's throat developed into a very severe attack of tonsilitis, the ulcerations being of such a character that his physicians forbade all thoughts of a sea voyage. He was only thirty-six years of age.

**THURSDAY'S TIPS.**

**The News of the Day as it Floats Around the Railroads and Manufactories.**

Charley Smith, machinist at the Bass works, has returned to duty again.

Martin Hensler, of the Bass blacksmith shops, is off on a brief vacation.

A. M. Brackenridge, a passenger agent of Pittsburg, Pa., is visiting friends in the city.

Homer Bennett, an engineer on the Chicago and Atlantic road, is in the city visiting his mother who is quite ill.

Lee Linn is the emigration agent of the Denver, Texas and Fort Worth railroad, with headquarters at Indianapolis.

Section Boss Chas. Buck, of the Wabash, is making a number of improvements on the company's track through the city.

Yard Master A. M. Schmidt, of the Wabash, will be married next month to an accomplished East Washington street young lady.

Clifford Cross, formerly of the Jenney Electric Light works, has taken a position as foreman in an electric light works at Lima, Ohio.

Ed Cleary was injured yesterday by falling from a freight train in the Pittsburg yards. He is now confined to his home on Holman street.

The Wabash took several parties from this city this morning to Wabash to attend the reunion of the Forty-ninth Indiana regiment at that place.

The city of Frankfort, Ind., voted $57,000 to the Clover Leaf railroad for the location of the principal shops of the company in that city. The shops will employ 500 men.

The east-bound passenger train on the Pittsburg road was burglarized at Columbia City the other evening. Two valises were stolen and relieved of their contents. The empty valises were found the following day.

The proposition submitted at Marion Tuesday to donate $40,000 to the Toledo, St. Louis and Kansas City railroad company, in consideration of the location of the company's shops, was carried by an immense majority.

The Wabash road yesterday took out nine new postal clerks, all of whom are republicans and take the place of democrats. A few days ago five others secured berths and it will only be a short time before a democrat will not be known in the railway mail service. The department was placed under the civil service May 1, and consequently all these appointments were supposed to be made prior to that time. The communications received by the discharged clerks are all dated April 29.

At midnight last night a fire was discovered in the millwright shops of the Bass works, by J. H. Kopp, one of the machinists, who was on night duty. It was caused by the friction of a rope against a wooden pulley and after it had broken out it filled the room with dense volumes of smoke. The boys on duty formed a bucket brigade, and led by L. W. Hudry, A. Fromuth and J. H. Kopp, they were soon at the scene of the fire and the flames were extinguished in a short time. The boys' promptness and bravery would have done credit to the fire department and they prevented what otherwise might have been a serious conflagration.

At the annual meeting of the stock and bondholders of the Pittsburg, Fort Wayne and Chicago railroad company, held yesterday, Messrs. L. H. Myers, E. P. Williams and Charles E. Speer, whose terms as directors had expired, were re-elected. Nearly 320,000 votes, representing $34,870,800, were cast, being the largest vote ever polled. The report of the board showed a total income of the last year of $9,842,113, less cost of operating and maintaining $7,129,361, leaving a balance of $3,712,572.50. The lessee company paid the Fort Wayne company a rental of $3,158,908, leaving a deficit to the operating company of $446,755.50.

**A NEW ONE.**

**Fort Wayne Capitalists Organize a Natural Gas Company in Jay County.**

"The Indiana and Ohio Oil, Gas and Mining company," of Portland, Jay county, was incorporated yesterday at the office of the secretary of state, with a capital stock of $300,000. Its directors are Charles E. Hequembourg, Robert C. Bell and R. T. McDonald. It seems that Fort Wayne money is behind the company.

The Salamonie gas fields are in Blackford county, so that the new company appears in other territory.

Mr. Bell, himself, was at Indianapolis yesterday to file the papers and at noon he went to Portland. Mr. Bell refused to say further than his company was back of a big manufacturing scheme.

**LOCAL LINES.**

Mr. Henry Strong, of West Jefferson street, is recovering from his recent illness.

Memorial day will be two weeks from to-day, and the Fourth of July is now only seven weeks away.

Edward Ely, ditch commissioner, sues Lafayette township, to foreclose a ditch lien. T. E. Ellison is counsel.

The "Pigs in Clover" puzzle has about run its race, and the latest wrinkle in enigmas is "Cows and Cowboys."

Mrs. James Clayton, of Covington, Ky., mother of Mr. George Clayton, is visiting at the residence of Mr. John C. Eckart.

Mr. Fred Lepper, the druggist, has given up bicycling. Fred says a horse and buggy is a better means of getting around this warm summer weather.

The state supreme court yesterday overruled a petition for a rehearing of the case of the Peters Box and Lumber company, vs. Wm. H. Lesh, appealed from Huntington county.

Mr. David L. Baugher, of Muncie, was married yesterday afternoon to Miss Emma Sharp, the daughter of Mr. Henry Sharp. The bride is a sister of Miss Sharp, of the Westminster Seminary. Mr. and Mrs. Baugher will reside at Muncie.

A double marriage took place this afternoon at the St. John Lutheran church. It was that of Mr. Louis Martin to Miss Kate Richards and Mr. William Martin to Miss Lotta Hunter. A reception will be given the young people this evening at the pleasant home of Mr. and Mrs. William Martin on Broadway. THE SENTINEL extends its congratulations.

The Business Men's exchange has called a general mass meeting at their new rooms on Calhoun street, over Baldwin's music store, for Monday evening next, May 20, to take some action to perfect an organization calculated to give us the biggest exposition and fair, commencing with this fall. A committee has been appointed to go over the ground carefully and report at this meeting what the prospects are for such a step. Speakers are to be in attendance to debate this question pro and con.

Herman Michael has been given a permit to build a one story frame house on lot 96, old plat, to cost $400; S. F. Pierce to repair house on lot 2, Equitable Trust company's addition, to cost $60; Dr. J. W. Younge to build a two story frame house on lot 217, William's addition, to cost $2,000; Chas. ## THEY GO ABROAD!

**Several Foreign Appointments Made by President Harrison To-day.**

WASHINGTON, May 16.—The president made the following appointments today: Solomon Hirsch, of Oregon, to be minister to Turkey. Clark E. Carr, of Illinois, to be minister resident and consular general to Denmark. Henry W. Severance, of California, to be consul general at Honolulu. John Jarret, of Pennsylvania, to be United States consul to Birmingham. Thomas H. Sherman, of the District of Columbia, to be United States consul at Liverpool.

The president to-day appointed John W. Douglas and L. G. Hine to be commissioners of the district of Columbia.

**RESOLUTIONS OF CONDOLENCE**

**On the Death of Robert Hanna by the Q. and C. Club.**

Whereas, It has been the will of Divine Providence to remove from our club circle our late companion and friend, Robert Hanna, and

Whereas, His actions and deeds have always proved him to be a kind and faithful companion and ever an upholder of friendship and industrial honors; therefore be it

Resolved, That we tender to the bereaved relatives and friends of our deceased companion, Robert Hanna, our heartfelt sympathy in the hour of deep affliction and we will ever cherish his memory of true friendship.

Resolved, That these resolutions be spread on the minutes of our club record, and that a copy thereof be presented to the relatives of our late companion (if they can be found), and that our roll of membership be draped in mourning for a period of ninety days.

**The Latest Puzzle.**

The curious public is always having thrust before its inquisitive nature something new. The "Pigs in the Clover" developed into a good sized craze and it is said has assured the person who caused its creation a snug fortune. Since the "Pigs" got out of the pen there have been numerous other puzzles brought out. The latest one is a dandy though and promises to eclipse everything. It is called "Fitch's Fun" and it pleases all who see it worked out. You lay down a sum of money and you will receive in exchange the footwear of your choice, which is worth the value of your money twice over. All who have worked this puzzle like it so well they want to do it some more. See the footwear for everybody at the Hoosier shoe store, 52 Calhoun street.

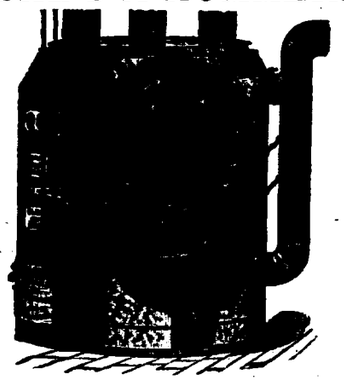
# SHE'S A HUMMER!



The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces. JOHN PRESSLER,
71 East Columbia street.

This furnace consumes but one ton of coal per month in the coldest weather.

THURSDAY, MAY 16, 1888.

THE law reigns supreme.

THE Indiana state reading circle has over 8,000 members.

THE twenty-fifth annual convention of the Indiana Sunday School Union will be held at Indianapolis June 4, 5 and 6.

THE Studebaker mansion at South Bend is to cost $250,000. It must have taken at least 100,000 wagons to pay for it. And what a procession they would make?

THE task of whitewashing the United States officials who tried to secure the best claims in Oklahoma, by taking advantage of their position, has already commenced in Kansas.

THE party bosses of Iowa and Minnesota are working to break the lines of the Womans Christian Temperance union, which is becoming a power for reform in the Northwest.

OKLAHOMA is a part of the original purchase of 1802. The name is Chickasaw, and means "beautiful land." What a master stroke was President Jefferson's purchase of that vast and fertile domain.

VAN ANTWERP, BRAGG & Co., have reduced the price of the school books from 20 to 30 per cent. since the passage of the law providing for cheaper school books, and a democratic legislature did this good work.

IT is foreshadowed that a local government bill for Ireland will be passed next year, and that the office of viceroy will be abolished, and one of chief secretary for Ireland established. Meantime the Prince of Wales may accept the office of viceroy and reside in Dublin a part of the time.

THE four principal natural gas towns of this state have recently completed their enumeration of children for school purposes, showing an increase over last year as follows: Kokomo, 459; Muncie; 412; Marion, 521; Anderson, 300. This increase of school children in one year indicates the rapid growth of population in the natural gas region.

THE Elkhart county court has allowed bills to the amount of nearly $4,000 in the Barrett murder case, and this does not include the fees of Mr. Baker and Judge Lowry, who have not presented their bills. The cost of the jury was a tirfle more than $1,000, and Dodge & Corey, attorneys for the defense by appointment of the court, were allowed $800.

THE Milwaukee *Herald*, a leading German organ, says: "The principal positions are already filled and the German-Americans have been slighted. In spite of all the devotion of the German-Americans to the republican party they have been ignored. President Harrison owes it to himself and to his party to give a satisfactory explanation why the German-American republicans have received such treatment at his hands."

SUPERINTENDENT A. B. STARR, of the Pittsburg, Fort Wayne and Chicago road, who has been on trial at Pittsburg for several days on a charge of manslaughter, was acquitted yesterday. The case has attracted much attention among railroad men, and grew out of the killing of two persons by the collision of an engine and a street car at the crossing in Allegheny City. It was held that Superintendent Starr was criminally responsible because he had issued an order that no bells or whistles should be sounded at street crossings. The case was prosecuted by the friends of the persons killed.

A GIGANTIC movement is under way to connect all the metropolitan cities by telephone. The enterprise is backed by the Bell Telephone company, and marks a departure in telephoning. It will consist of a long distance system connecting Chicago, St. Louis, Cincinnati, Indianapolis, Omaha, Kansas City, St. Paul, Minneapolis, and Milwaukee. The center of this system will be Chicago, and through that station New York, Philadelphia, Boston, and Washington will be connected with all the other points. The Bell companies embraced in this great consolidation will be those of Illinois, Iowa, Michigan, Indiana, Minnesota, Ohio and Missouri.

PROFITS in railroad circles are looking with interest on the movement of Judge Burke, of Cleveland, who is fighting the Vanderbilt scheme to unite the Bee Line and Big Four. Judge Burke was once the confidential friend of Wm. H. Vanderbilt, and it was he who selected the wily ex-judge to consumate the deal whereby the Nickel Plate road was purchased. Nothing ever worried Mr. Vanderbilt more than the Nickel Plate property. Mr. Calvin Brice and his company knew this, and were bound to make Mr. Vanderbilt pay handsomely for the property. The millionaire was so eager to get it, Judge Burke once said, that when he learned their lowest terms he was eager to close the bargain, but the judge held him in check, and thereby saved him hundreds of thousands, for the Nickel Plate people became nervous and lowered their price. Mr. Vanderbilt rewarded Burke with a fee of $200,000.

### An Imperative Necessity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the germs of disease destroyed. Scrofula, salt rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

### The Beef Bill.

ALBANY, N. Y., May 15.—The assembly to-day, by a vote of 80 to 23, defeated the so-called diseased beef bill.

### Was America Ever Discovered?

At the time when Columbus started in search of the New World, nearly every man, woman and child in Europe insisted that there was no New World to discover. When he came back, crowned with success, a large proportion of these good people adhered to their theory; and if they were alive to-day many of them would doubtless insist that America had never been discovered at all. A man will give up anything in the world more readily than a pet theory. For example, look at the individuals who still maintain that consumption is incurable. Dr. Pierce's Golden Medical Discovery has cured thousands upon thousands of cases, and will cure thousands more, but these people can't give up their point. Nevertheless the "Discovery" will cure any case of consumption, if taken in time.

Peter Steri and Rosina Lengacher, Daniel L. Bougher and Emma Sharp have been licensed to wed.

### Forced to Leave Home.

Over 60 people were forced to leave their homes yesterday to call for a free trial package of Lane's Family Medicine. If your blood is bad, your liver and kidneys out of order, if you are constipated and have headache and an unsightly complexion, don't fail to call on any druggist to-day for a free sample of this grand remedy. The ladies praise it. Everyone likes it. Large size package 50 cents.

The ladies' auxilliary of the railroad Y. M. C. A. met this afternoon.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Baths and Massage, Turkish and Russia Cabinet, Electro-Thermal and Napor, etc. Select patients only. Gentlemen 8 to 3 and 5 to 9. Ladies, 2 to 5 p. m. 74 Calhoun street. Take elevator. tf

The boys go in bathing up the river, within the city limits, almost every warm evening.

# BAD COMPLEXIONS.

**The Secret of Their Cause Fully Explained—Why Ladies are Sallow and Men Pallid—Some Valuable Facts on the Subject.**

In passing along the leading streets in almost any city in America to-day, one will meet with but few ladies who have clear complexions. Many persons have tried to account for this sad fact because of the severe climate of America, but such reasoning is wrong. A bad complexion is caused by impure blood, and no lady can be really beautiful and no man ruddy, who has diseased or impure blood.

The best known way of keeping the blood pure is by keeping it circulating. In this way it passes rapidly through the lungs, kidneys and liver, and is constantly purified. But supposing the system is clogged up as is frequently the case, then of course the blood becomes impure. Then far too often men and women take some powerful purgative, pill or other substance, that clears the body quickly, weakens the strength, and leaves the system in worse condition than before. The only sensible way is to take a gentle, pure and natural purgative, moderately but regularly, and the highest known medical authorities of the day agree that the genuine imported Carlsbad Sprudel Salt is infinitely superior to any other natural preparation known to the world. It is gentle, yet stimulating; it is pure, yet powerful. Containing only natural properities, being evaporated from the celebrated Carlsbad Sprudel Spring, it cannot injure the body in the least, and yet it has never failed to renew life, purify the blood and thus clear the complexion. Hundreds of doctors have given it their unqualified endorsements; thousands of people go each year to the Carlsbad Springs, but they can obtain no greater benefit than by taking the Carlsbad Sprudel Salt in its powdered form, such as can be procured at any drug store in the land. When it is considered that the Carlsbad Salt costs, practically, little more than the cheap, questionable and often injurious Salts, purgatives and Bitter Waters that are in the market, one bottle being sufficient for nearly a month, all persons who keep pace with the times and desire only what is best, will see that it is to their interest to use only the Carlsbad. Each bottle is in a light blue paper cartoon and has the signature Eisner & Mendelson Co., sole agents, on every bottle. One bottle mailed upon receipt of one dollar. Dr. Tobold's lecture and pamphlets mailed free upon application. Eisner & Mendelson Co., 6 Barclay St., New York.

# HOPTONIC !

Rev. Isaac N. Sprague, D. D., Brattleboro, Vt., formerly of Detroit, says: "Hoptonic has done wonders for me."

Mr. F. L. Fort, of the "Times," Chicago, Ill., writes: "I find it to be most beneficial in my case." (Insomnia.)

Dr. John W. Powell, Peoria, Ill., says: "Mrs. Jones has received the most gratifying results from the use of Hoptonic."

Dr. H. Perrin, formerly of the International Throat and Lung Intstitute, Montreal, now at Boston, Mass., says: "I had heard so much regarding Hoptonic and being a great sufferer from Insomnia and Dyspepsia caused by close confinement to business, I concluded to test its merits personally. I have the satisfaction of acknowledging that I have received the greatest benefit from its use; that it is all it has been represented to be, and I recommend it to all who may be suffering from the same complaint I was. I have used Hoptonic repeatedly in my practice, and I am free to say that in every case with the most happy results."

## LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

SPECIFICATIONS FOR THE IMPROVEMENT OF COLUMBIA AND CLAY STREETS.

General specification for the extension and improvement of Columbia street, from the east line of Lafayette street to the Maumee river, and the improvement of Clay street, from Columbia street, extended to Main street, and consists of grading, graveling, timber, protection and stone rip rap protection:

The stone protection will extend from the east line of Lafayette street, produced on the north side of the Columbia street embankment and extend to the proposed abutment and commencing at the abutment on the south side of Columbia street and extending west to the east line of Clay street; extended thence south along east line of Clay street improvement to the high bank; thence along the high or natural bank with the meandering of the Maumee river to a point on a line of Main street produced north side.

Specification for earth embankment on the Columbia and Clay street extension:

1. The width of the embankment at the top will be sixty (60) feet when finished from break to break of bank, and to the heights shown on the profile which will not exceed five feet above high water mark.

2. The slopes will be one and a quarter (1¼) feet horizontal to one foot vertical, commencing full grade at the bottom of base, putting on the earth in regular courses, not to exceed two (2) feet rise to the course, and each course to be leveled off and thoroughly rolled to receive the succeeding course, and to continue the work throughout in courses of two (2) feet, and to be leveled off the same as the first or bottom course.

3. No perishable material will be allowed in the embankment whatever.

4. The contractor must furnish all the material used in the embankment, pay all freight, cartage or drayage and to construct the embankment in a good, substantial and neat manner, true to a line and grade given by the city civil engineer, according to the plan.

Timber and Lumber—There will be guards erected both sides of the streets, between the street proper and the sidewalks, composed of posts, coping rail and hub plank raised to the height of four and a half (4½) feet above the street grade, to be given by the city civil engineer.

Timber and lumber will be of the best quality of white or burr oak. Posts will be 6x6 at the butt or lower end, and taper to 4x6 inches at the top, set to a true line given by the said engineer and to be five and a half (5½) in the ground, and made firm and substantial by thoroughly tamping and ramming the earth while re-filling around the posts. The posts to be set eight feet from center of post, the coping rail will be 4x6 inches, and will be fastened with mortin and tennon, and well spiked onto the posts with wrought iron spikes, ½ inch square by not less than 8 inches long, clear of the head.

The hub plank will be 8½x10 inches, 16 feet long and will be spiked to the posts, joints and centers, with 8 wrought iron spikes, ½ inch square and not less than 6 inches long, clear of the head. The bottom edge of the hub plank will be three feet below the top of the coping rail, and shall be placed true to a line

There will, also, be placed a protection on the out edge of the walk at the break of the bank, for the protection of foot passengers, of the following description and dimensions, to-wit:

The posts will be 4x4 inches, 5 feet long, 3 feet in the ground, 3 feet above ground, with coping rail on top, 3x4 inches, 16 feet long, mortis and tennon in the same manner as that of the street guard above described, except spicks 40 d. may be used. The post will be set directly in line across the street eight feet apart, the same as the street guard, and will be anchored to the street guard by spiking on onto the post a 1½x6 inch piece under the sidewalk with 20 d. spikes, and a plank, answering to a hub plank, 1½ inch by 6 inches, 16 feet long, and to be firmly spiked to the posts, joists and center with 20 d. spikes. The whole wood work of the improvement to be of good, sound white or burr oak, free from all imperfection and not to be put in place in the work until it has been inspected by the city civil engineer.

The whole to be completed in a good substantial and workman-like manner, to the entire satifaction of the city civil engineer and the approval of the common council.

Graveling—As soon as the road bed has been brought to its proper crown and grade and in the opinion of the city civil engineer in proper shape and condition the formation of the mettle-way will be commenced. Said metal-way will consist of coarse, clean river or pit gravel, free from all dirt or perishable material, fifteen inches in the center depth and nine inches in depth at the sides. As soon as the gravel has been spread for the distance of one square or more it will be thoroughly rolled and packed down by means of a roller weighing not less than five thousand pounds.

A hand roller may be used on the sidewalk where the heavy roller cannot be used, that the whole surface of the grade and gravel, to the with of 50 feet, may be reached, and the rolling process shall be continued at the pleasure of the city civil engineer or to his entire satisfaction.

Rip-rap—The stone for the protection of the embankment will be constructed as shown on the plan. End view of rip-rap.

The stone will be of the best quality of stone for the purpose, well shaped to lay close joints, and not to be less than 12 inches deep and not more than 18 inches deep, and no stone to be less than two square feet and not less than six inches thick and must break vertical joint at least six inches. No stone to be used in the work until they have been inspected by the city civil engineer. Any stone that may be condemned or rejected will be removed entirely away from the work by the contractor. The whole to be completed in a good, substantial and workman-like manner, to the entire satisfaction of the city civil engineer and the approval of the common council.

Preparation of road bed—No excavation will be required further than the cleaning off, and removed from the street, all earth and filth from the road bed, leaving the same clean and free from all perishable and other objectionable matter and any uneven places found shall then be neatly trimmed and leveled off by cutting down the high places and filling the low places with the same material as that found in the road bed, and shall then be thoroughly rolled or rammed or both as the city civil engineer may direct. All trimming and leveling up must be done by hand with tools for that purpose; no plowing nor scraping will be allowed.

Manner of doing the work—The contractor shall furnish the material at his own expense; do all the work, pay all the freight, do all cartage and drayage, at his own expense. The material shall be of the very best of each and every kind named in this specification.

The contractor shall not commence the taking up or removing the material of any kind from the street to be improved, until the material such as is required for the improvement shall have been delivered on the side walk preparatory to commence work, in such a manner as not to occupy more than one-half its width, of the walk leaving free passage may of the other half for fyot passengers on either side of the street.

And should the contractor, at any time during the progress of the work, fail, refuse or neglect to furnish material in accordance with these specifications, or fail, neglect or refuse to furnish skilled labor, for the faithful perfor mance of the different parts of the work, or refuse to comply with any part of these specification, the city civil engineer shall have full power to reject any or all material or labor, and cause the same to be removed entirely away from the work; and shall have full power to procure suitable material and employ skilled labor, and cause all or any part of the work to be rebuilt at the expense of the contractor, in order that the true intent and meaning of these specifications may be strictly carried out.

As fast as a square is finished, the contractor will remove all rubbish and material deposited by him on the street side walk, or alley, and shall replace all crossing and culverts and put them in as good condition as they were before being disturbed,

The payment for said work must be collected by the contractor at his own expense from the property owners bordering thereon, according to the provisions of sections 68, 69, 70 and 71 of the acts of the general assembly of the state of Indiana, approved March 14, 1867, and all acts amendatory and suplemental thereto.

Whenever any gutter, curbing or other work has been heretofore constructed and which the engineer may deem sficient, or in case that the owner of any property bordering on said street shall give satisfactory evidence of an intention forthwith to pave with stone flagging, such walk will be exempt from these specifications, so far as relates to brick pavement.

The contractor must guard the public from injury by reason of the construction of said work and defend, at his own expense, all action for damages which may be brought against the city on account of any neglect of the necessary precautions.

Section one (1), chapter eight (8), of the revised ordinances of the city of Fort Wayne is incorporated into and made a part of these specifications.

The work to be commenced and carried on at such time and places as the engineer may direct, and completed to his entire satisfaction and the approval of the common council on or before the.....day of.....188..

Estimates—Estimates may be made (by the city civil engineer) in favor of the contractor, as the work progresses, and will simply be an approximate estimate, and shall be numbered one (1), two (2) and upwards, but in no case will an estimate bearing a number be considered as an acceptance of the work or any part thereof and the contractor will be held responsible for any and all of the work to be carried on to completion, the same as if no estimate had been allowed.

And upon completion of the work the city civil engineer shall make out a final estimate for the amount due, arter deducting all former estimates made to said contractor, which will be submitted to the common council for their approval.

Estimate of the cost of the improvement:

**Plain History.**

Swift's Specific is a simple vegetable compound, prepared from roots gathered freshly from the forest, and contains nothing of the mineral kingdom, or any poisonous substance, or any article at all which comes from the chemist's labratory.

The formula of the remedy was obtained from the Creek Indians in Middle Georgia, by reliable white men, who had witnessed the wonderful cures made by that tribe of Indians, of blood diseases. Mr. Hugh L. Dennard, of Houston, Ga., began using Swift's Specific in 1829, and continued its use all of his life, and asserted that he had never known it to fail to cure any case of scrofula, blood taint, or contagious blood poison. This testimony has been corroborated every day for years. The present company was formed in 1879, and have since made known to the world the virtues of Swift's Specific, and to-day it is sold in every city, town and country store all over America, Great Britain, and many other portions of the world.

I have seen Swift's Specific used, and known of many cases of the worst form of blood diseases which have been cured by it. I know the proprietors to be gentlemen of the highest type and utmost reliability. I recommend it as a great blood remedy, unequalled by anything that I know of.

## FLAMES AT QUEBEC!

**A Fierce Fire Raging at the Canadian City—A Hundred Houses Burned.**

QUEBEC, May 16.—Early this morning fire was discovered in a vacant building in St. Sauveur, and soon assumed large dimensions, spreading to various parts of the city. The firemen were unable to check the flames, and the military blew up the houses with powder to prevent it from spreading. While they were engaged in this task a premature explosion took place, killing two men.

The fire covered a large area, and destroyed over a hundred houses, involving a loss of not less than $100,000. It is still raging.

**A CLEVER SWINDLER.**

**He Defrauds Liquor Men Out of $300,000.**

CHICAGO, May 16.—One of the biggest swindles of the year, by which western liquor men have been "taken in" to the tune of $300,000, has just been brought to light, and the swindler, a bright young chemist, named John Archibald Camp, is now living in luxury at some far-away place.

He claimed to be the discoverer of a compound which, when mixed with raw whisky would give it the odor, taste and appearance of from four to six-year-old high wine. He had a refrigerator with a false bottom, and this was used to effect the swindle.

**Presbyterian General Assembly.**

NEW YORK, May 16.—The general assembly of the Presbyterian church in the United States, opened its session with prayer to-day in the Rev. Howard Crosby's church on Fourth avenue. The edifice was crowded, altogether there were 480 delegates representing twenty-eight synods or state districts of the Presbyterian church.

**Y. M. C. A. LECTURE COURSE.**

**Robert McIntyre, the Orator, Next on the Program—Thursday Evening, May 23d.**

Robert McIntyre, the great word painter of the west, will give his celebrated lecture, "Thirty Hours in the Sunless world," next Thursday evening in the Y. M. C. A. hall. Admission only 50 cents. The Topeka, Kan., *Daily Commonwealth* contains the following about Mr. McIntyre:

From Robt. Ingersoll himself could not surpass him in his loftiest flights, and McIntyre is superior to Ingersoll in depth of thought. No more profound thinker has set foot on Kansas soil. We have heard Talmage and others in America and Europe, but for burning eloquence never heard Robt. McIntyre's equal.

**FOR MURDER.**

**Old Man Barrett Indicted on Three Counts.**

The grand jury, now in session, yesterday investigated the killing of Mrs. Barrett by her husband, John Barrett, and this morning returned an indictment charging the old man with murder in the first degree on three counts.

**The Weather.**

WASHINGTON, May 16.—Indiana—Fair in southern portion; light rains in northern portion; stationary temperature in southern portion; warmer in northern portion; southerly winds.

The observance of the silver jubilee of Dean E. P. Walters, of Lafayette, was an imposing affair and a high compliment to the distinguished divine, who formerly resided here and still has a host of friends in Fort Wayne. The school children paid their respects to the priest, then the parishioners. There was a parade and all day there was a reception at the clergyman's home. The feature of the occasion was the celebration of solemn high mass, in which Rt. Rev. Bishop Dwenger officiated, with Rev. T. M. O'Leary, of this city, as sub-deacon and Chancellor Lang master of ceremonies. There were present from these parts Rt. Rev. Bishop Dwenger, Very Rev. J. H. Brammer, Very Rev. E. Koenig, Rev. T. M. O'Leary, Chancellor J. F. Lang, of this city; Rev. Father Koordt, Sheldon; Rev. J. H. Oechtering, Fort Wayne; Rev. D. Duehmig, Avilla; Rev. J. R. Dinnen, Crawfordsville; Rev. B. Weiden New Haven. The sermon of the day was delivered by Rev. D. S. Phelan, editor of the *Western Watchman*, St. Louis. Father Walters is one of the ablest pastors in the Catholic priesthood. He was the recipient of many tokens of love from his congregation.

Dr. Geo. W. Bowen is at home from Indianapolis. THE SENTINEL has outlined his address to the Indiana Homeopathists.

**LOCAL LINES.**

The Tad polo club is expected home to-morrow.

Mr. Al. Pepe is at home from the Tad Pole excursion.

Police court was a blank this morning. The reform is on.

Justice Franco fined Walter Shanes $1 and costs for provoking Jennie Vaugh.

Mrs. Geo. DeWald and Mrs. John Mohr returned at noon from Grand Rapids.

The will of the late Albert Garrison was filed to-day. He leaves his estate to his wife.

The Concordia college club beat the Cellar nine at base ball yesterday by a score of 14 to 6.

Mr. Geo. Gordon, the Pittsburg baggagemaster, is going to be a candidate for councilman from the Seventh ward.

F. W. Peters, St. Louis; E. Earl, Pittsburg; C. Rauch, Chicago; B. A. Stone, Mohawk, N. Y., are at the Aveline.

Mrs. C. C. Craig will leave to-night for Hillsdale, Mich., her former home, to visit her grandparents and friends for a few weeks.

Jacob Ardington, the fellow who knocked his wife down because she received love letters, was fined $5 and costs by Mayor Harding.

J. B. Barnes, Springfield, Ill.; Albert Hoizing, St. Mary's, Ohio; Bromley, Jackson, Mich.; G. B. Webb, Lancaster, Ohio, are at the Wayne.

Col. R. S. Robertson yesterday received his commission as one of the Utah commissioners. The first meeting of the new commisson will not be until September next.

Mrs. Maggie Sully, who underwent an operation at the City hospital recently, has so far recovered as to be conveyed to her home, corner of Montgomery and Clay streets.

The Tivoli Garden is billed to open next Sunday with a band and big picnic. The place is within the jurisdiction of the mayor, and of course the sale of beer will be prohibited.

Helen, the little daughter of Mr. F. J. Noll, of East Jefferson street, was playing about a cellar-way this morning when the door fell upon her foot and nearly severed the big toe.

Mr. W. H. Heustis, for ten years a traveling salesman for A. C. Trentman, has resigned to give his attention to the commission house of Clayton, Purcell & Co., in which he is interested.

The Licensed Liquor Dealers' association is called to meet to-morrow afternoon to take action on Mayor Harding's proclamation. Some of the saloon men talk of fighting the movement to enforce observance of the Sabbath.

Mrs. Wheeler, residing at the corner of Thomas and Horace streets, underwent a difficult but perfect operation last Tuesday, and is now out of danger. The operation was performed by Drs. Laubach, McCausland and Chambers.

Louise McCrea was arrested to-day for cruelty to her little child, but the case went over until to-morrow, before Esquire Ryan. If reports are true, the woman suspends the infant by its lower limbs, sticks pins into its little body, and is extremely inhuman.

Louis E. Martin and Catherine L. Richard, Wm. H. Martin and Charlotta A. Hunter, Charles A. Armbruster and Matilda Ort, Timothy Redmond and Esther Keef, have been licensed to wed. Armbruster is a boardless Aboit township boy who weds a widow aged thirty-five years.

Messrs. John Forbing and David Comparet are going over the city real estate very carefully and thoroughly. Their work will necessitate an extension of time for them, but there should be no hesitation in granting it as the work is of the highest importance. Mr. Forbing says they are making a gradual increase in the valuation of the property all over the city, for the first time in ten years. The Hamilton and Williams estate on Calhoun street and the Taber estates come in for a snug raise, they say, and to equalize matters Mr. Forbing believes the tax levy can be reduced to ninety cents on the $100, ten cents lower than it is now.

## DEATH STRIKES HIGH!

**And Removes the Newly Appointed Minister to Russia Ere He Had Set Sail for That Country.**

NEW YORK, May 16.—Mr. Allen Thorndyke Rice, the newly appointed minister to Russia, died at an early hour this morning.

He was nominated to be minister to Russia by President Harrison and was to have sailed for Europe yesterday, on the steamer City of Paris. Monday afternoon the soreness in Mr. Rice's throat developed into a very severe attack of tonsilitis, the ulcerations being of such a character that his physicians forbade all thoughts of a sea voyage. He was only thirty-six years of age.

**THURSDAY'S TIPS.**

**The News of the Day as it Floats Around the Railroads and Manufactories.**

Charley Smith, machinist at the Bass works, has returned to duty again.

Martin Henster, of the Bass blacksmith shops, is off on a brief vacation.

A. M. Brackenridge, a passenger agent of Pittsburg, Pa., is visiting friends in the city.

Homer Bennett, an engineer on the Chicago and Atlantic road, is in the city visiting his mother who is quite ill.

Lee Linn is the emigration agent of the Denver, Texas and Fort Worth railroad, with headquarters at Indianapolis.

Section Boss Chas. Bitek, of the Wabash, is making a number of improvements on the company's track through the city.

Yard Master A. M. Schmidt, of the Wabash, will be married next month to an accomplished East Washington street young lady.

Clifford Cross, formerly of the Jenney Electric Light works, has taken a position as foreman in an electric light works at Lima, Ohio.

Ed Cleary was injured yesterday by falling from a freight train in the Pittsburg yards. He is now confined to his home on Holman street.

The Wabash took several parties from this city this morning to Wabash to attend the reunion of the Forty-ninth Indiana regiment at that place.

The city of Frankfort, Ind., voted $57,000 to the Clover Leaf railroad for the location of the principal shops of the company in that city. The shops will employ 500 men.

The east-bound passenger train on the Pittsburg road was burglarized at Columbia City the other evening. Two valises were stolen and relieved of their contents. The empty valises were found the following day.

The proposition submitted at Marion Tuesday to donate $40,000 to the Toledo, St. Louis and Kansas City railroad company, in consideration of the location of the company's shops, was carried by an immense majority.

The Wabash road yesterday took out nine new postal clerks, all of whom are republicans and take the place of democrats. A few days ago five others secured berths and it will only be a short time before a democrat will not be known in the railway mail service. The department was placed under the civil service May 1, and consequently all these appointments were supposed to be made prior to that time. The communications received by the discharged clerks are all dated April 29.

At midnight last night a fire was discovered in the millwright shops of the Bass works, by J. H. Kopp, one of the machinists, who was on night duty. It was caused by the friction of a rope against a wooden pulley and after it had broken out it filled the room with dense volumes of smoke. The boys on duty formed a bucket brigade, and led by L. W. Hudry, A. Fromuth and J. H. Kopp, they were soon at the scene of the fire and the flames were extinguished in a short time. The boys' promptness and bravery would have done credit to the fire department and they prevented what otherwise might have been a serious conflagration.

At the annual meeting of the stock and bondholders of the Pittsburg, Fort Wayne and Chicago railroad company, held yesterday, Messrs. L. H. Myers, E. P. Williams and Charles E. Speer, whose terms as directors had expired, were re-elected. Nearly 320,000 votes, representing $34,870,800, were cast, being the largest vote ever polled. The report of the board showed a total income of the last year of $9,842,113, less cost of operating and maintaining $7,129,861, leaving a balance of $3,712,572.50. The lessee company paid the Fort Wayne company a rental of $3,158,908, leaving a deficit to the operating company of $446,155.53.

**A NEW ONE.**

**Fort Wayne Capitalists Organize a Natural Gas Company in Jay County.**

"The Indiana and Ohio Oil, Gas and Mining company," of Portland, Jay county, was incorporated yesterday at the office of the secretary of state, with a capital stock of $300,000. Its directors are Charles E. Hequembourg, Robert C. Bell and R. T. McDonald. It seems that Fort Wayne money is behind the company.

The Salamonie gas fields are in Blackford county, so that the new company appears in other territory.

Mr. Bell, himself, was at Indianapolis yesterday to file the papers and at noon he went to Portland. Mr. Bell refused to say further than his company was back of a big manufacturing scheme.

**LOCAL LINES.**

Mr. Henry Strong, of West Jefferson street, is recovering from his recent illness.

Memorial day will be two weeks from to-day, and the Fourth of July is now only seven weeks away.

Edward Ely, ditch commissioner, sues Lafayette township, to foreclose a ditch lien. T. E. Ellison is counsel.

The "Pigs in Clover" puzzle has about run its race, and the latest wrinkle in enigmas is "Cows and Cowboys."

Mrs. James Clayton, of Covington, Ky., mother of Mr. George Clayton, is visiting at the residence of Mr. John C. Eckart.

Mr. Fred Lopper, the druggist, has given up bicycling. Fred says a horse and buggy is a better means of getting around this warm summer weather.

The state supreme court yesterday overruled a petition for a rehearing of the case of the Peters Box and Lumber company, vs. Wm. H. Lesh, appealed from Huntington county.

Mr. David L. Baugher, of Muncie, was married yesterday afternoon to Miss Emma Sharp, the daughter of Mr. Henry Sharp. The bride is a sister of Miss Sharp, of the Westminster Seminary. Mr. and Mrs. Baugher will reside at Muncie.

A double marriage took place this afternoon at the St. John Lutheran church. It was that of Mr. Louis Martin to Miss Kate Richards and Mr. William Martin to Miss Lotta Hunter. A reception will be given the young people this evening at the pleasant home of Mr. and Mrs. William Martin on Broadway. THE SENTINEL extends its congratulations.

The Business Men's exchange has called a general mass meeting at their new rooms on Calhoun street, over Baldwin's music store, for Monday evening next, May 20, to take some action to perfect an organization calculated to give us the biggest exposition and fair, commencing with this fall. A committee has been appointed to go over the ground carefully and report at this meeting what the prospects are for such a step. Speakers are to be in attendance to debate this question pro and con.

Herman Michael has been given a permit to build a one story frame house on lot 96, old plat, to cost $400; S. F. Pierce to repair house on lot 2, Equitable Trust company's addition, to cost $60; Dr. J. W. Younge to build a two story frame house on lot 217, William's addition, to cost $2,000; Chas. ## THEY GO ABROAD!

**Several Foreign Appointments Made by President Harrison To-day.**

WASHINGTON, May 16.—The president made the following appointments today: Solomon Hirsch, of Oregon, to be minister to Turkey. Clark E. Carr, of Illinois, to be minister resident and consular general to Denmark. Henry. W. Severance, of California, to be consul general at Honolulu. John Jarret, of Pennsylvania, to be United States consul to Birmingham. Thomas H. Sherman, of the District of Columbia, to be United States consul at Liverpool.

The president to-day appointed John W. Douglas and L. G. Hine to be commissioners of the district of Columbia.

**RESOLUTIONS OF CONDOLENCE**

**On the Death of Robert Hanna by the Q. and C. Club.**

Whereas, It has been the will of Divine Providence to remove from our club circle our late companion and friend, Robert Hanna, and

Whereas, His actions and deeds have always proved him to be a kind and faithful companion and ever an upholder of friendship and industrial honors; therefore be it

Resolved, That we tender to the bereaved relatives and friends of our deceased companion, Robert Hanna, our heartfelt sympathy in the hour of deep affliction and we will ever cherish his memory of true friendship.

Resolved, That these resolutions be spread on the minutes of our club record, and that a copy thereof be presented to the relatives of our late companion (if they can be found), and that our roll of membership be draped in mourning for a period of ninety days.

**The Latest Puzzle.**

The curious public is always having thrust before its inquisitive nature something new. The "Pigs in the Clover" developed into a good sized craze and it is said has secured the person who caused its creation a snug fortune. Since the "Pigs" got out of the pen there have been numerous other puzzles brought out. The latest one is a dandy though and promises to eclipse everything. It is called "Fitch's Fun" and it pleases all who see it worked out. You lay down a sum of money and you will receive in exchange the footwear of your choice, which is worth the value of your money twice over. All who have worked this puzzle like it so well they want to do it some more. See the footwear for everybody at the Hoosier shoe store, 52 Calhoun street.

## SHE'S A HUMMER!

The above cut represents the HOWARD FURNACE which obtains by its construction, advantages over all others. It is the most scientific. Practical and Simple heater yet produced. It has the largest radiating surface, therefore the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.
JOHN PRESSLER,
71 East Columbia street.

This furnace consumes but one ton of coal per month in the coldest weather.

THURSDAY, MAY 16, 1889.

THE law reigns supreme.

THE Indiana state reading circle has over 8,000 members.

THE twenty-fifth annual convention of the Indiana Sunday School Union will be held at Indianapolis June 4, 5 and 6.

THE Studebaker mansion at South Bend is to cost $250,000. It must have taken at least 100,000 wagons to pay for it. And what a procession they would make?

THE task of whitewashing the United States officials who tried to secure the best claims in Oklahoma, by taking advantage of their position, has already commenced in Kansas.

THE party bosses of Iowa and Minnesota are working to break the lines of the Womans Christian Temperance union, which is becoming a power for reform in the Northwest.

OKLAHOMA is a part of the original purchase of 1802. The name is Chickasaw, and means "beautiful land." What a master stroke was President Jefferson's purchase of that vast and fertile domain.

VAN ANTWERP, BRAGG & CO., have reduced the price of the school books from 20 to 30 per cent. since the passage of the law providing for cheaper school books, and a democratic legislature did this good work.

IT is foreshadowed that a local government bill for Ireland will be passed next year, and that the office of viceroy will be abolished, and one of chief secretary for Ireland established. Meantime the Prince of Wales may accept the office of viceroy and reside in Dublin a part of the time.

THE four principal natural gas towns of this state have recently completed their enumeration of children for school purposes, showing an increase over last year as follows: Kokomo, 459; Muncie, 412; Marion, 521; Anderson, 300. This increase of school children in one year indicates the rapid growth of population in the natural gas region.

THE Elkhart county court has allowed bills to the amount of nearly $4,000 in the Barrett murder case, and this does not include the fees of Mr. Baker and Judge Lowry, who have not presented their bills. The cost of the jury was a little more than $1,000, and Dodge & Corey, attorneys for the defense by appointment of the court, were allowed $800.

THE Milwaukee *Herald*, a leading German organ, says: "The principal positions are already filled and the German-Americans have been slighted. In spite of all the devotion of the German-Americans to the republican party they have been ignored. President Harrison owes it to himself and to his party to give a satisfactory explanation why the German-American republicans have received such treatment at his hands."

SUPERINTENDENT A. B. STARR, of the Pittsburg, Fort Wayne and Chicago road, who has been on trial at Pittsburg for several days on a charge of manslaughter, was acquitted yesterday. The case has attracted much attention among railroad men, and grow out of the killing of two persons by the collision of an engine and a street car at the crossing in Allegheny City. It was held that Superintendent Starr was criminally responsible because he had issued an order that no bells or whistles should be sounded at street crossings. The case was prosecuted by the friends of the persons killed.

A GIGANTIC movement is under way to connect all the metropolitan cities by telephone. The enterprise is backed by the Bell Telephone company, and marks a departure in telephoning. It will consist of a long distance system connecting Chicago, St. Louis, Cincinnati, Indianapolis, Omaha, Kansas City, St. Paul, Minneapolis, and Milwaukee. The center of this system will be Chicago, and through that station New York, Philadelphia, Boston, and Washington will be connected with all the other points. The Bell companies embraced in this great consolidation will be those of Illinois, Iowa, Michigan, Indiana, Minnesota, Ohio and Missouri.

PEOPLE in railroad circles are looking with interest on the movement of Judge Burke, of Cleveland, who is fighting the Vanderbilt scheme to unite the Bee Line and Big Four. Judge Burke was once the confidential friend of Wm. H. Vanderbilt, and it was he who selected the wily ex-judge to consummate the deal whereby the Nickel Plate road was purchased. Nothing ever worried Mr. Vanderbilt more than the Nickel Plate property. Mr. Calvin Brice and his company know this, and were bound to make Mr. Vanderbilt pay handsomely for the property. The millionaire was so eager to get it, Judge Burke once said, that when he learned their lowest terms he was eager to close the bargain, but the judge held him in check, and thereby saved him a quarter of a million, for the Nickel Plate people became nervous and lowered their price. Mr. Vanderbilt rewarded Burke with a fee of $50,000.

### An Imperative Necessity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the germs of disease destroyed. Scrofula, salt rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

### The Beef Bill.

ALBANY, N. Y., May 15.—The assembly to-day, by a vote of 89 to 23, defeated the so-called diseased beef bill.

### Was America Ever Discovered?

At the time when Columbus started in search of the New World, nearly every man, woman and child in Europe insisted that there was no New World to discover. When he came back, crowned with success, a large proportion of these good people adhered to their theory; and if they were alive to-day many of them would doubtless insist that America had never been discovered at all. A man will give up anything in the world more readily than a pet theory. For example, look at the individuals who still maintain that consumption is incurable. Dr. Pierce's Golden Medical Discovery has cured thousands upon thousands of cases, and will cure thousands more, but these people can't give up their point. Nevertheless the "Discovery" will cure any case of consumption, if taken in time.*

### Forced to Leave Home.

Over 60 people were forced to leave their homes yesterday to call for a free trial package of Lane's Family Medicine. If your blood is bad, your liver and kidneys out of order, if you are constipated and have headache and an unsightly complexion, don't fail to call on any druggist to-day for a free sample of this grand remedy. The ladies praise it. Everyone likes it. Large size package 50 cents.

The ladies' auxiliary of the railroad Y. M. C. A. met this afternoon.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,

## BAD COMPLEXIONS.

**The Secret of Their Cause Fully Explained—Why Ladies are Sallow and Men Pallid—Some Valuable Facts on the Subject.**

In passing along the leading streets in almost any city in America to-day, one will meet with but few ladies who have clear complexions. Many persons have tried to account for this sad fact because of the severe climate of America, but such reasoning is wrong. A bad complexion is caused by impure blood, and no lady can be really beautiful and no man ruddy, who has diseased or impure blood.

The best known way of keeping the blood pure is by keeping it circulating. In this way it passes rapidly through the lungs, kidneys and liver, and is constantly purified. But supposing the system is clogged up as is frequently the case, then of course the blood becomes impure. Then far too often rash and women take some powerful purgative, pill or other substance, that clears the body quickly, weakens the strength, and leaves the system in worse condition than before. The only sensible way is to take a gentle, pure and natural purgative, moderately but regularly, and the highest known medical authorities of the day agree that the genuine imported Carlsbad Sprudel Salt is infinitely superior to any other natural preparation known to the world. It is gentle, yet astonishing; it is pure, yet powerful. Containing only natural properties, being evaporated from the celebrated Carlsbad Sprudel Spring, it cannot injure the body in the least, and yet it has never failed to renew life, purify the blood and thus clear the complexion. Hundreds of doctors have given it their unqualified endorsements; thousands of people go each year to the Carlsbad Springs, but they can obtain no greater benefit than by taking the Carlsbad Sprudel Salt in its powdered form, such as can be procured in any drug store in the land. When it is considered that the Carlsbad Salt costs, practically, little more than the cheap, pernicious and often injurious Salts, purgatives and Bitter Waters that are in the market, one bottle being sufficient for nearly a month, all persons who keep pace with the times and desire only what is best, will see that it is to their interest to use only the Carlsbad. Each bottle is in a blue glass carton, and has the signature Eisner & Mendelson Co., sole agents, on every bottle. One bottle mailed upon receipt of price. Dr. Pendell's lecture and pamphlets mailed free upon application. Eisner & Mendelson Co., 6 Barclay St., New York.

## LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives as such a pace we have no time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is distilled from the concentrated and very palatable form in the shape of New Style Pleasant Tonic Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Tonic on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

SPECIFICATIONS FOR THE IMPROVEMENT OF COLUMBIA AND CLAY STREETS.

General specification for the extension and improvement of Columbia street, from the east line of Lafayette street, to the Maumee river, and the improvement of Clay street, from Columbia street, extended to Main street, and bounds of grading, gravelling, timber, protection and stone rip rap protection.

The stone protection will extend from the east line of Lafayette street, produced to the north side of the Columbia street embankment and extend to the proposed abutment and commencing at the abutment on the South side of Columbia street and extending west to the east line of Clay street; extended thence south along east line of Clay street improvement to the high bank; thence along the high or natural bank with the meandering of the Maumee river to a point on a line of Main street produced north side.

Specification for earth embankment on the Columbia and Clay street extension:

1. The width of the embankment at the top will be fifty (50) feet when finished from bank to bank of bank, and to the height shown on the profile which will not exceed five feet above high water mark.

2. The slopes will be one and a quarter (1¼) feet horizontal to each foot vertical, commencing full width at the bottom or base, putting on the earth in regular courses, not to exceed two (2) feet rise to the course, and each course to be leveled off and trimmed to receive the next course, succeeding in the same manner, and to continue the work throughout in courses of two (2) feet, and to be leveled off the same as the first or bottom course.

3. No perishable material will be allowed in the embankment whatever.

4. The contractor must furnish all the material used in the embankment, pay all freightage, cartage or drayage and to construct the embankment in a good, substantial and neat manner, true to the lines and grade given by the city civil engineer, according to the plan.

Timber and Lumber—There will be guards erected both sides of the streets, between the street proper and the sidewalks, composed of posts, coping rail and belt plank raised to the height of four and a half (4½) feet above the street grade, to be given by the city civil engineer.

Timber and lumber will be of the best quality of white or burr oak. Posts will be 4x5 at the butt or lower end, and taper to 4x4 inches at the top, set to a true line given by the said engineer and to be five and a half (5½) to the ground, and made firm and substantial by thoroughly tamping and ramming the earth while re-filling around the posts. The posts to be set eight feet from center of post, the coping rail will be six inches, and will be fastened with mortise and tenson, and well spiked onto the posts with wrought iron spikes, $\frac{3}{4}$ inch square, not less than 8 inches long, clear of the head.

The belt plank will be 2½x10 inches, 16 feet long and will be spliced to the posts, joints and corners, with 8 wrought iron spikes, $\frac{3}{4}$ inch square and not less than 6 inches long, clear of the head. The bottom edge of the belt plank will be three feet below the top of the coping rail, and shall be placed true to a line.

There will also be placed a protection on the out edge of the walk at the break of the bank, for the protection of foot passengers, of the following description and dimensions, to-wit:

The posts will be 4x4 inches, 6 feet long, 3 feet in the ground, 3 feet above ground, with coping rail on top, 4x4 inches, 16 feet long, mortis and tenson in the same manner as that of the street guard above described, except spaces 9×4, may be used. The post will be set directly in the imperfection and not to be put in place in the work until it has been inspected by the city civil engineer.

The whole to be completed in a good substantial and workmanlike manner, to the entire satisfaction of the city civil engineer in proper shape and condition for formation of the brick-tile-way will be commenced. Said embankment will consist of coarse, clean river or pit gravel, free from all dirt or perishable material, fifteen inches in the center depth and nine inches in depth at the sides. As soon as the gravel has been spread for the distance of one square or more it will be thoroughly rolled and packed down by means of a roller weighing not less than five thousand pounds.

A hand roller may be used on the sidewalk where the heavy roller cannot be used, that the whole surface of the same may be rolled, so with of 30 feet, may be reached, and the rolling process shall be continued at the pleasure of the city civil engineer or to his entire satisfaction.

Rip-rap—The stone for the protection of the embankment will be placed as shown on the plan. And view of rip-rap.

The stone will be of the best quality of stone for the purposes, and shall be not less than 6 inches deep and not to be less than 15 inches deep, and no stone to be less than two square feet and not less than 12 inches thick and must break vertical joint at least six inches. No stone to be used in the work until they have been inspected by the city civil engineer. Any stone that may be considered objected will be removed entirely away from the work by the contractor. The whole to be completed in a good, substantial and workman-like manner, to the entire satisfaction of the city civil engineer and the approval of the common council.

Preparation of road bed—No excavation will be required further than the cleaning off, and removed from the street, all earth and mud from the road bed, leaving the same clean and free from all perishable and other objectionable matter and any uneven places found shall then be neatly trimmed and leveled off by cutting down the high places and filling the low places with the same material as that found in the road bed, and shall then be thoroughly rolled or rammed or both as the city civil engineer may direct. All trimming and leveling up shall be done by hand with tools for that purpose; no plowing nor scraping will be allowed.

Manner of doing the work—The contractor shall furnish the material at his own expense; do all the work, pay all the freight, do all cartage and drayage, at his own expense. The material shall be of the very best of each and every kind named in this specification.

The contractor shall not commence the taking up or removing the material of any kind from the street to be improved, until the material such as is required for the improvement shall have been delivered on the side walk preparatory to commence work, in such a manner as not to occupy more than one-half its width, of the walk leaving free passage way of the other half for foot passengers on either side of the street.

And should the contractor, at any time during the progress of the work, fail, refuse or neglect to furnish material in accordance with these specifications, or fail, neglect or refuse to furnish skilled labor, for the faithful performance of the different parts of the work, or refuse or neglect to pay with any part of these specifications, the city civil engineer shall have full power to reject any or all material or labor, and cause the same to be removed entirely away from the work; and shall have full power to procure suitable material and employ skilled labor, and cause all or any part of the work to be rebuilt at the expense of the contractor, in order that the true intent and meaning of these specifications may be strictly carried out.

As fast as a square is finished, the contractor will remove all rubbish and material deposited by him on the street side walk, or alley, and shall replace all crossing and culverts and put them in as good condition as they were before being disturbed.

The payments for said work must be collected by the contractor at his own expense from the property owners bordering thereon, according to the provisions of sections 68, 69, 70 and 71 of the acts of the general assembly of the state of Indiana, approved March 14, 1867, and all acts amendatory and supplemental thereto.

Whenever any gutter, curbing or other work has been heretofore constructed and which the engineer may deem sufficient, in case that the owner of any property bordering on said street shall give satisfactory evidence of an intention forthwith to pave with such gutter, such walk will be exempt from these specifications so far as relates to brick pavement.

The contractor must guard the public from injury by reason of the construction of said work and defend, at his own expense, all action for damages which may be brought against the city on account of any neglect of the necessary precautions.

Section one (1), chapter eight (8), of the revised ordinances of the city of Fort Wayne is incorporated into and made a part of these specifications.

The work to be commenced and carried on at such time and places as the engineer may direct, and completed to his entire satisfaction and the approval of the common council on or before the.....day of.....189.

Estimates—Estimates may be made (by the city civil engineer) in favor of the contractor, as the work progresses, and will simply be an approximate estimate, and shall be summed up (1), two (2) and upwards, but in no case will an estimate bearing a number be considered as an acceptance of the work or any part thereof and the contractor will be held responsible for any and all of the work so incorrect on to completion, the same as if no estimate had been allowed.

And upon completion of the work the city civil engineer shall make out a final estimate for the amount due, after deducting all former estimates, to the contractor, which will be submitted to the common council for their approval.

Estimate of the cost of the improvement:

**Plain History.**

Swift's Specific is a simple vegetable compound, prepared from roots gathered freshly from the forest, and contains nothing of the mineral kingdom, or any poisonous substance, or any article at all which comes from the chemist's laboratory.

The formula of the remedy was obtained from the Creek Indians in Middle Georgia, by reliable white men, who had witnessed the wonderful cures made by that tribe of Indians, of blood diseases. Mr. Hugh L. Dennard, of Houston, Ga., began using Swift's Specific in 1828, and continued its use all of his life, and asserted that he had never known it to fail to cure any case of scrofula, blood taint, or contagious blood poison. This testimony has been corroborated every day for years. The present company was formed in 1879, and have since made known to the world the virtues of Swift's Specific, and to-day it is sold in every city, town and country store all over America, Great Britain, and many other portions of the world.

I have seen Swift's Specific used, and known of many cases of the worst form of blood diseases which have been cured by it. I know the proprietors to be gentlemen of the highest type and utmost reliability. I recommend it as a great blood remedy, unequalled by anything that I know of.
